## CURRICULUM FRAMEWORK POLICY

### PURPOSE

The Victorian Curriculum and VCAA Study Designs specify the skills children and young people need for success in work and life. This framework policy sets out how Wandiligong Primary School provides this opportunity for our students by providing a broad range of programs for students in the later years.

Curriculum covers all the arrangements the school makes for students' development and learning. It includes the course content, student activities, teaching approaches, the way in which teachers and classes are organised and decisions on the need for and the use of facilities and resources.

Wandiligong Primary School encourages its students to strive for excellence in all of their endeavours. To achieve this, the school provides sequential teaching and learning programs that deliver a comprehensive, broadly based and culturally inclusive curricula. The school is committed to offering students a curriculum which will meet their pathways.

Each year the school will map out its curriculum offerings in the form of a Curriculum Plan.

Wandiligong Primary School will meet the minimum standard with:

- Time Allocation per each of the eight learning areas (Appendix 1)
- An explanation of how and when curriculum and teaching practice will be reviewed (statement found at 'Review Process')
- An Outline of how the school will deliver its curriculum (Wandiligong Primary School Curriculum Planning documents)
- A Whole School Curriculum map which can also show time allocation (Appendix 2).
- A documented strategy to improve student learning outcomes (Annual Implementation Plan)

### IMPLEMENTATION

Staff are expected to follow the current curriculum, as specified by DET and VCAA. It is each staff member's responsibility to ensure that their teaching programs align with these curriculum documents. The Principal class, as well as all staff, have the responsibility to ensure changes to curriculum are made known to all staff members.

The teaching staff will determine the curriculum program for the following year, based on provision needs and departmental policy requirements. Input will be sought from the relevant staff in the curriculum area when determining programs for the following school year.

To facilitate curriculum planning and implementation, scope and sequence documents, assessment criteria, record keeping documentation, handbooks and proformas will be used.

The DET requirements related to the teaching of Languages, Physical and Sports Education will continue to be implemented.

The use of Information and Communications Technologies (ICT) will be integrated across the curriculum to support the improvement of teaching and learning outcomes and adheres to DET's School Policy & Advisory Guide '[Using Digital Technologies to Support Learning and Teaching](#)' and the school's own endorsed policy.

Curriculum leaders will be required to review their policy statement and prepare a comprehensive annual program budget and submit these to School Council.
